

# Reading Kingdom

Groundbreaking online reading program for K-3. First program to use the “Phonics-PLUS” system.

“This program has transformed the teaching of reading. It enables students to achieve mastery. It’s outstanding.”  
-- Dr. Brad Peterson, Director, Institute for the Developing Mind, USC

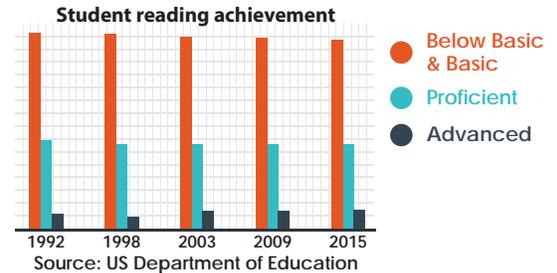

“Reading Kingdom provides the most complete method for teaching reading & writing that I’ve ever seen. Thank you for this outstanding program.”  
-- Catherine Smith, teacher

“I started a movement to address the reading crisis & we use Reading Kingdom. I highly recommend the program.”  
-- Bob Null, Former School Board Director, District 11, Colorado Springs

Currently **2 out of 3 students fail to achieve reading proficiency** due to an overreliance on phonics-only decoding approaches that fail to address English’s irregularities (there are 1,768 ways to spell 40 phonemes). Consider this sentence where “ea” can be “sounded out” 13 different ways!

I knew in my **head & heart** that the **theater bureau’s** harsh **reaction** to the **great & beautiful ocean/earth** pageant, was **mean** spirited despite the **caveat** that the review was **changeable**.

Reading Kingdom, on the other hand, is the first program available that uses Dr. Marion Blank's “Phonics-PLUS” Six Skill system. It features innovative techniques to teach all 6 visual, auditory and language skills in an integrated fashion. The result is that children become successful readers in a fraction of the time.

	Sequencing	Motor Skills	Phonics	Semantics	Syntax	Comprehension

Phonics			✓			

## Key benefits:

- Research based and incredibly effective
- Program is adaptive
- Requires very little professional development
- Students can use the program both at school & home
- Works with Win, Mac, iPad, Android, & Chromebooks
- Teaches students to read & write with comprehension at a 3rd grade level in only 12-18 months

**Dr. Marion Blank** is a world-renowned developmental psychologist and literacy expert who created the “Phonics-PLUS” method. She has authored scores of peer-reviewed articles and books, lectured extensively around the world and developed dozens of award winning teaching programs.
